Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE CLAIMS

Cancel claim 50.

2. Authorization for this examiner's amendment was given in a telephone interview with Ladi O. Shogbaminu on April 27, 2005.

3. The drawings are objected to because Figures 8-12, 13A, 13B, 14A and 14B are not readable. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application.

Examiner's Statement of Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance: The prior art Adachi, U.S. Pat. Appl. Pub. No. 2002/0038213 A1 teaches extracting morphs and these morphs are rules (see section 0054-0059) while the claimed invention develops morphs based on rules. Claimed invention Morphs are not rules but dependant on rules. In addition claimed invention recite "fluid object material operable to develop a morphable object and source code based on the rules input through the subject matter

expert interface" (see claim 1, lines 6-8, figure 1 and specification, page 15, all three paragraphs). Therefore, the prior art fails to teach or suggest fluid object material operable to develop a morphable object and source code based on the rules input through the subject matter expert interface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
